---

**Unfortunately, in the nearest future we will not organize any Polish language preparatory courses.**

In case you want to study in Polish make sure then while applying you already have at least B1 level Polish language certificate.

However, before winter semester 2020/2021 we will most probably organize a **two week long Polish language/culture crash course**, which will enable all our **freshmen students** (that will not study in Polish) to feel more comfortable during their time in Poland.

We will keep you informed!
