

Politechnika Łódzka

Published on *Politechnika Łódzka - Rekrutacja* (<https://rekrutacja.p.lodz.pl>)

Annually, Lodz University of Technology, a week before the start of classes, organizes Orientation Days for the freshmen, during which they learn about the organizational structure of our University, get acquainted with the Polish law as well as learn about opportunities for student exchange and intern.

At the same time, we make sure that our international students get familiar with Polish culture and customs, they know our city and integrate with each other, which is possible thanks to the numerous entertaining activities.
