

Politechnika Łódzka

Published on *Politechnika Łódzka - Rekrutacja* (<https://rekrutacja.p.lodz.pl>)

In the recruitment for the 2024/2025 academic year, it is possible to approach the entrance exams for the Lodz University of Technology.

If you think that the grade that will be taken into consideration in the recruitment process is too low and reduces your chances of getting into your dream field of study, you can decide to take the entrance exam. If, among the grades that bind and crown the end of your high school education, you lack any of the grades required in the admissions process, you can also take the exam.

The available exams are divided into basic and extended levels and two language versions: Polish and English.

In the recruitment portal, you can select the option that you want to take the exam in the following subjects: Mathematics, English, Physics, Chemistry.

The exams will be conducted online.

Entrance examinations (1-st cycle studies) for candidates with certificates from outside the Polish education system:
