International Faculty of Engineering

CHECK ONBOARDING!

# HOW YOU WILL BE WELCOMED ON BOARD WHEN YOU START YOUR STUDIES AT IFE?

## 6th August 2025 at 11:00 a.m. - Q&A online session for newly accepted students

A meeting on Teams platform with employees of the Admissions Department and Student Affairs Department, during which we will **answer your questions**.

## 13-19 September 2025 - Adapciak

**A unique introductory camp organized by the Students' Self-Government of TUL.** During the camp, you will meet new people who, just like you, are starting their adventure with studies. Together, you will be able to get to know the real academic life better, but also take part in trainings that will **develop your soft skills and add some self-confidence**, useful not only during studies. Fun, attractions, sleepless nights - all this in one place!

## Second part of September 2025 – Bridging Course

If you need to catch up in maths or physics, join Bridging Course. Check your student mailbox – once you activate it – you'll get the details there.

## First week of October 2025

**Study Skills for University** – Special course module, so you can feel the difference between studying and learning.

**Meet your IFE mate** – Get the most out of participating in the interdisciplinary/soft skills project for all students admitted to IFE.

**SEE YOU AT TUL!**
